Field Inspections of Communications Installations

TH
2 H 3

Reference is made to your memorandum of 23 February concerning the forthcoming field security inspections to be conducted by the Inspection Staff. This Office concurs in your suggestion that the program be considered a joint Office of Security - Office of Communications inspection whenever a communications installation is concerned and will welcome the assistance of the Communications Area Security Officer.

Arrangements are being made for an over-all security inspection which would include the technical aspects mentioned in your memorandum. Present plans, unless you have objections to the contrary, contemplate a three-man security team comprised of Messrs. [redacted] who will, after a thorough briefing, proceed to [redacted] for a conference with appropriate officials at [redacted]. They will make a re-inspection of the station there, followed by an inspection of the station at [redacted] as well as at such other stations within the [redacted] network as may be desired by the Chief of [redacted]. The team will then return to Headquarters and draft their reports before conducting additional inspections.
